

Regulation & Risk in Today's Health Care Environment

Governmental, Business & Legal Perspectives

Thursday, October 26, 2017

Additional ACPE Information

Educational Objectives:

At the completion of this program, the participant should be able to:

1. Describe the types of activity that may place the pharmacist/pharmacy in violation of fraud, waste and abuse laws/regulations.
2. Discuss the differing modalities associated with the practice of pharmacy in the long-term care setting and legal compliance.
3. Explain how to apply discovery privileges when operating a pharmacy, including protecting documents and information from disclosure.
4. Define cybersecurity and risk management, how to manage them and how to insure against risks and threats associated with ransomware and cybersecurity risks in the pharmacy.
5. Recognize how Illinois state government works and how a pharmacy voice can improve outcomes for the profession.
6. Discuss IDFPR expectations of pharmacy compliance in Illinois and the latest innovations that IDFPR has brought to assist in this process.

Continuing Pharmacy Education Requirements

This activity is structured to meet knowledge-based educational needs and acquire factual knowledge. Information in knowledge-type activities is based on evidence as accepted in the literature by the health care professions. Continuing pharmacy education (CPE) credit will be earned based on participation in the activity. Attendance and participation are required before obtaining CPE credit. Any individual who is more than 10 minutes late to an activity or leaves an activity early will not be granted CPE credit. This procedure will be strictly enforced, so please plan accordingly. Participants must complete an activity evaluation and posttest (if applicable) with a passing score of 70 percent or greater.

This activity is accredited through ACPE for pharmacist continuing pharmacy education credit.

If all requirements are met, participants will receive continuing pharmacy education credit in the following manner. Partial credit will not be awarded. Please allow 60 days for processing.

Pharmacists

CPE Monitor, a national, collaborative effort by ACPE and the National Association of Boards of Pharmacy (NABP) to provide an electronic system for pharmacists and technicians to track their completed CPE credits, went into effect on January 1, 2013. IPhA, as an ACPE-accredited provider, is required to report pharmacist CPE credit using this tracking system. Pharmacist participants must provide their NABP e-Profile Identification Number and date of birth (in MMDD format) when they register for a CPE activity or complete activity evaluations. It will be the responsibility of the pharmacist to provide the correct information (IE e-Profile Identification Number and Date of birth in MMDD Format. If this information is not provided, NABP and ACPE prohibit IPhA from issuing CPE Credit. Online access to their inventory of completed credits will allow pharmacists to easily monitor their compliance with CPE requirements and print statements of credit. Therefore, IPhA will not provide individual printed statements of credit to pharmacists. For additional information on CPE Monitor, including e-Profile set-up and its impact on pharmacists and pharmacy technicians, go to www.nabp.net.

Universal Program Number: 0135-9999-17-035-L04-P

Contact Hours: 4.0

Initial Release Date: October 26, 2017

Expiration Date: October 26, 2020

The Illinois Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.
